

Newspapers In Education
Panhandle Tech Prep
Best Practice – 2005

Panhandle Tech Prep is a proud sponsor of Newspapers In Education through the Amarillo Globe News. This partnership provides classroom newspapers for students in the Panhandle of Texas through participating school districts.

Each year we work with the Amarillo Globe News and Amarillo ISD Career and Technology Department to provide an educational newspaper tabloid during Career and Technology Week in February. This year's tabloid was entitled: "Panhandle Technical Careers – Career and Technology Education: Training Tomorrow's Workforce". In it were featured articles: "Tech Prep Around Town", "Get Ready, Set, Teach" (on AmeriCorps program at AISD), and "Build It Up" (on building trades courses). This tabloid always stirs up a lot of interest in CATE and Tech Prep programs within the community and we receive a lot of feedback from it. This is also distributed throughout the Panhandle.

Tech Prep sponsors a continually running "Job Centers Page", that appears in The Amarillo Globe News once a month. The Job Centers page features career trends and hot jobs.
