

**Tech Prep Career On Wheels Day
Best Practice - 2005
Texoma Tech Prep**

Texoma Tech Prep Career On Wheels Day- On May 6th Texoma Tech Prep in association with Grayson County College & Junior Achievement hosted the first annual C.O.W. Day. About five hundred area middle school students attended Careers On Wheels or C.O.W. Day. Twenty-seven local businesses brought vehicles they use in their careers for students to explore. Students were divided into groups to view each vehicle where many businesses had hands on activities for the students to do. Students were educated on each career by the business representative accompanying the vehicle. C.O.W. Day was a huge success and we look forward to hosting it again next year.
